Have your eye on someone you'd like to get to know a little — or a lot — better? When it comes to questions to ask your crush, we're pretty sure we can improve on the whole "come here often?" line of questioning.

There's a bit of an art to seeding a romantic interest with questions that help you both gauge compatibility and strike the balance of fun, flirty, and probing. In other words, you want to deepen your knowledge of this person (you can even refer to these [game ideas](#) to do so). You don't want it to seem like you're interviewing them for a job or ambushing them (says the person known for asking "when was the last time you cried?" as a [first date question](#)). Of course, it's not like there's a strict formula for things to ask your crush to follow here. Talking to someone you're into can be nerve-inducing enough without mentally ticking off a things-to-say, things-not-to-say list in your head! But if you need a little help pushing the conversation in a direction that's equal parts [flirty](#) and insightful à la [Truth or Dare](#), we've done some of the work for you.
